EVERY COLOR IS GREEN

Interpon IT – Powder Coatings for the IT industry

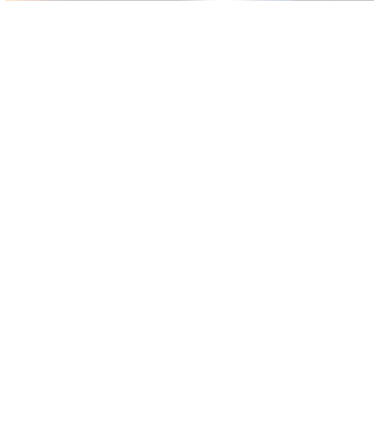

Introduction to Interpon IT

The IT sector is very demanding. Stringent physical and visual requirements mean only top quality coatings are acceptable. That's why AkzoNobel Powder Coatings have introduced **Interpon IT**.

We know coatings, we know color and we know durability and protection. The **Interpon IT** range combines all these characteristics and more into high quality, environmentally friendly coatings designed to look good and perform to a very high standard.

Log on to Something Different

Interpon IT boasts a full range of specially designed powder coatings based upon solid, low bake thermosetting polymeric materials which can be applied onto metallic and metallic alloy substrates. **Interpon IT** is suitable for a wide range of applications such as:

- Servers
- Notebooks
- Desktops
- Self Service Technology
- Telecommunications
- Office equipment

Interpon IT – going further

The **Interpon IT** series is also suited to both the self service technology sector and telecommunications. **Interpon IT** provides tough and durable indoor and outdoor coatings with characteristics such as superb weatherability and corrosion prevention. **Interpon IT** is already coating a range of products from airport check in machines, ATMs and supermarket self check outs and can be found on worldwide brands.

Your Coating, Your Choice

Interpon IT powders are tough, durable, stylish and constantly evolving. Making your choice easy, the **Interpon IT** range is also available in an extensive range of colors, textures and special finishes.

Series		Finish
Interpon IT 1000		Standard Finishes
Interpon IT 2000		Primers
Interpon IT 3000		Metallics
Interpon IT 4000		High Gloss
Interpon IT 5000		Galaxy
Interpon IT 6000		Tactiles
Interpon IT 7000		Anodics

Interpon IT Masterspec

Our IT specialists ensure a full understanding of customers requirements and compliance to IT specifications. The **Interpon IT MasterSpec** has been developed to meet with the most stringent demands of the industry. The final specification represents a collection of the most challenging tests extracted from the specifications of a number of the worlds leading IT OEM's. Mainly Notebook specifications, where performance requirements are highest, the **Interpon IT MasterSpec** sets a very high standard for the industry.

With Interpon IT Every Color Is Green

Interpon Powder Coatings boast great green credentials:

- No Volatile Organic Compounds (VOC's)
- No toxic heavy metals such as lead or chromium (VI)
- No waste as any overspray can be reclaimed and recycled or reprocessed
- Durable protection, reducing the need for replacement products or coatings

The **Interpon IT** range offers an economic, low environmental impact alternative to the wet paint technology often used for finishing.
